Why MTG ?

Myanmar, to become a garment-making hub again

The global economy is starting to rebound post-pandemic, offering new opportunities for Myanmar's textile and garment industry. The country's previous rapid growth was interrupted by COVID-19 in 2020 and political turmoil the following year. Signs of recovery appeared in October 2021, as the political situation has been stabilizing. Myanmar's textile and garment industry is bound to rise again and foreign investment activity to increase.

Since its first installment, MTG has played a vital role in boosting trade and innovations in the domestic textile and garment industries. It's an accelerant for foreign investment and the recovery from the impacts of the pandemic in recent years.

As the leading textile and garment industry fair, MTG will present to you a series of seminars and conferences, and in addition serve as an all-in-one stop showcasing textile and garment machinery, embroidery machines, digital textile printing technology, laundry equipment, and much more. We are thrilled to see a return to live and in-person conferences, trade shows, and corporate events from 16 - 19 December 2025 at the Yangon Convention Centre (YCC).

Benefits of Attending MTG

To experience the latest technology, innovations, and transnational connection, getting inspiration for new solutions

- **Precision & sustainable marketing**
- **One-stop garment production industry sourcing**
- **Networking event**
- **Onsite programs & seminars**

Exhibition Profile

Textile

- Machinery & Accessories
